Project Recap

Social Buzz is a fast growing technology unicorn that need to quickly adapt to global's scale.

Accenture has begun a 3 month POC focusing on these tasks:

- An audit of Social Buzz big data practice
- Recommendations for a successful IPO
- Analysis to find the top 5 most of popular content categories

Problem

Over 100000 posts per day

36.500.000 pieces of content per year!

But how to capitalize on it when there is so much?

Analysis to find Social Buzz's top 5 most popular content categories

“ANIMALS” POSTS

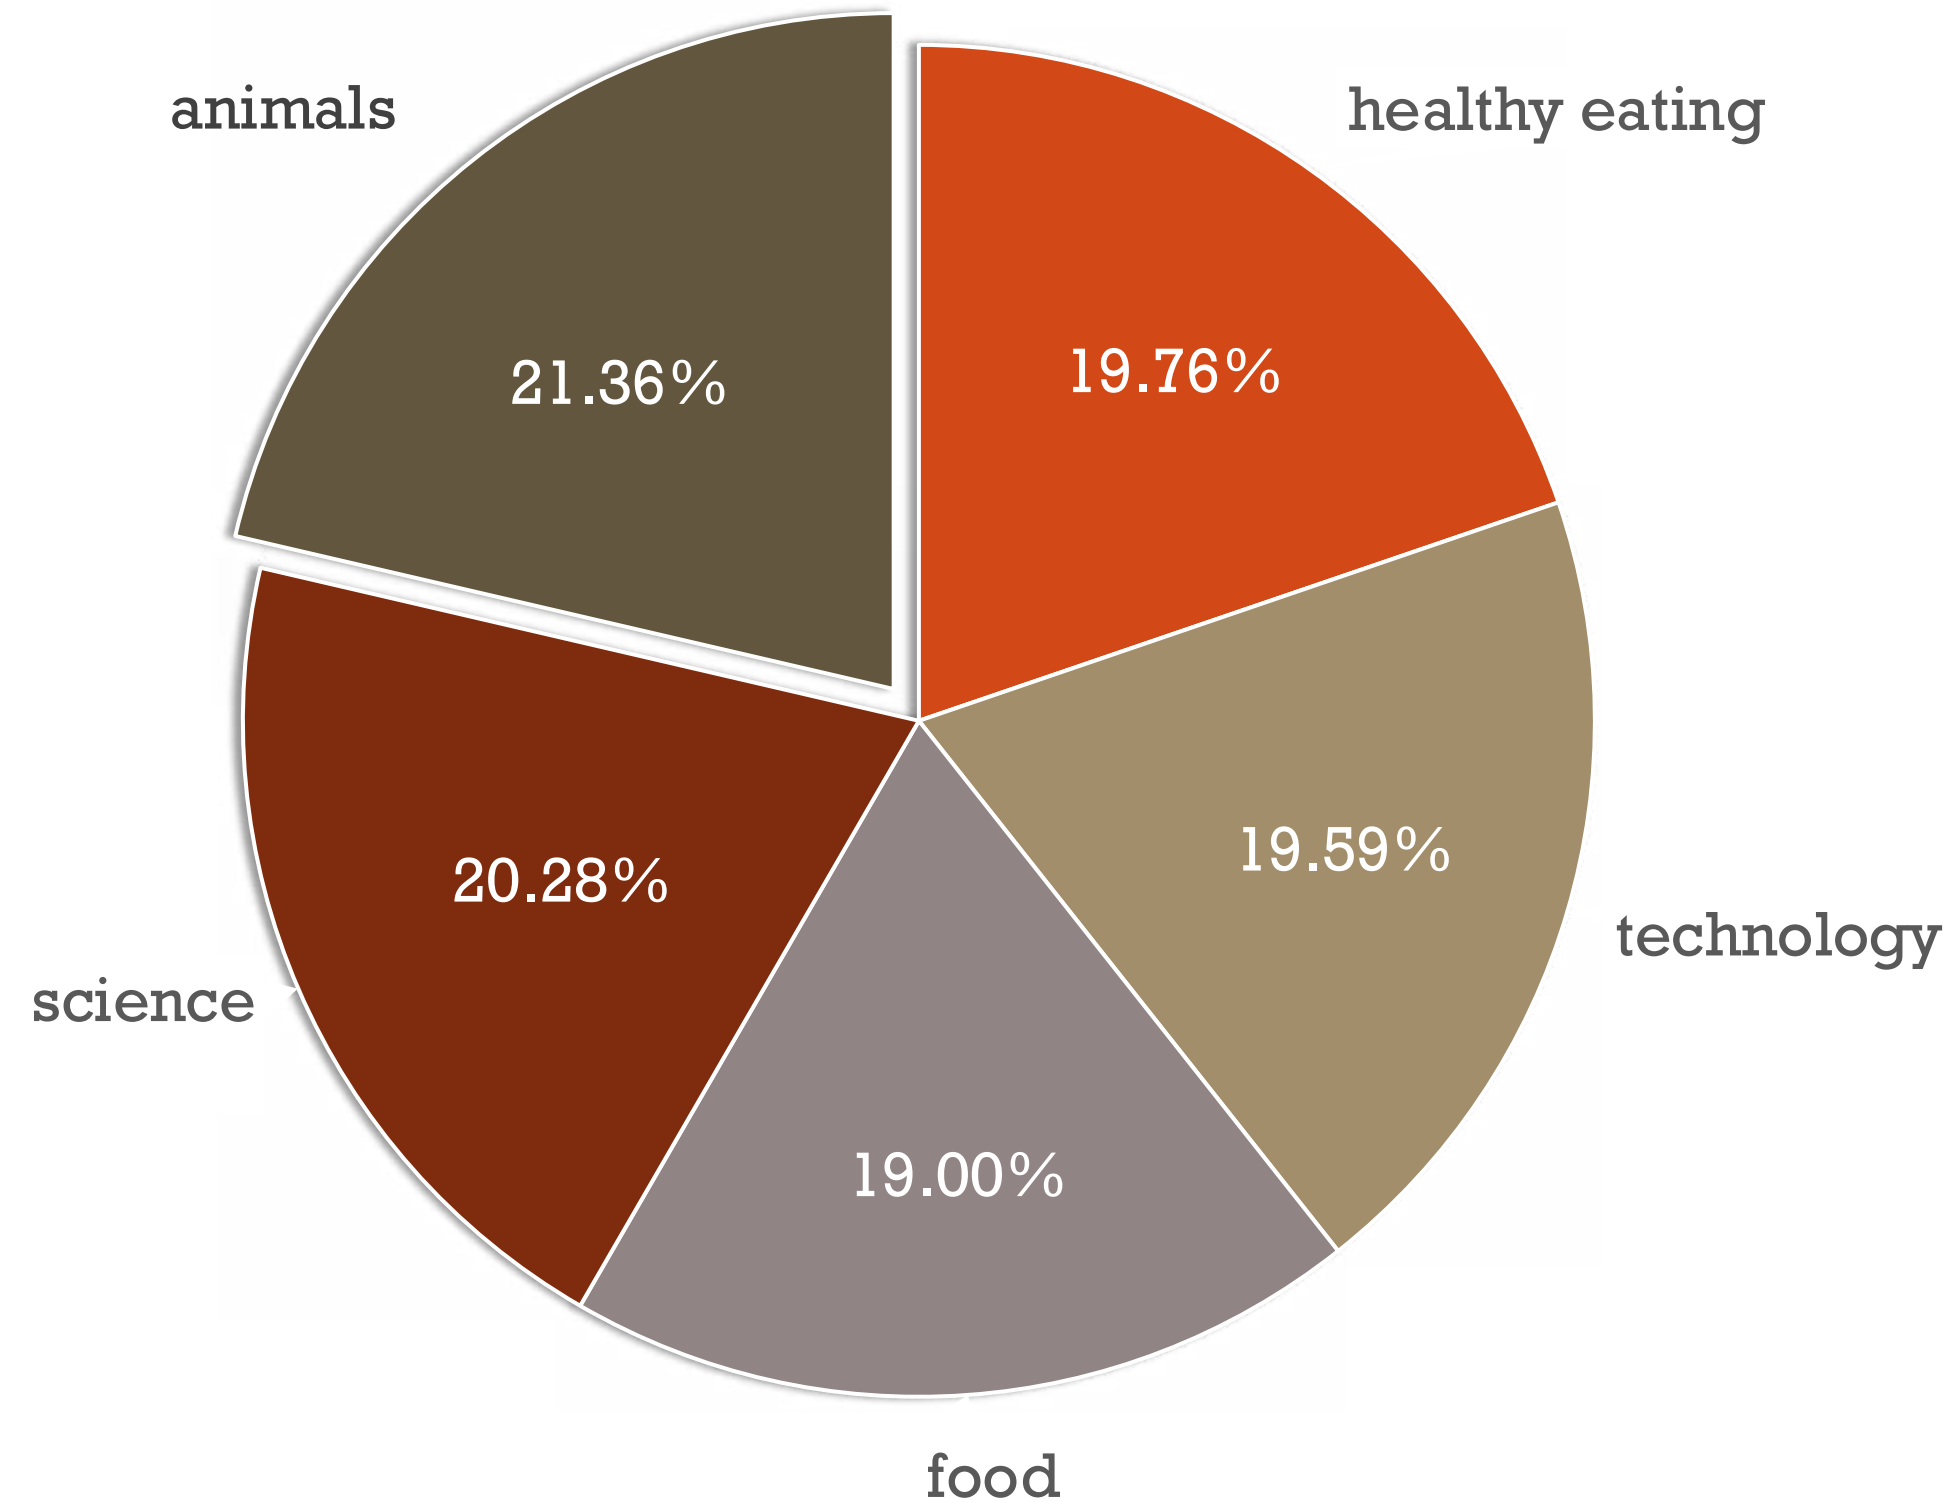

January

MONTH WITH
MOST POSTS

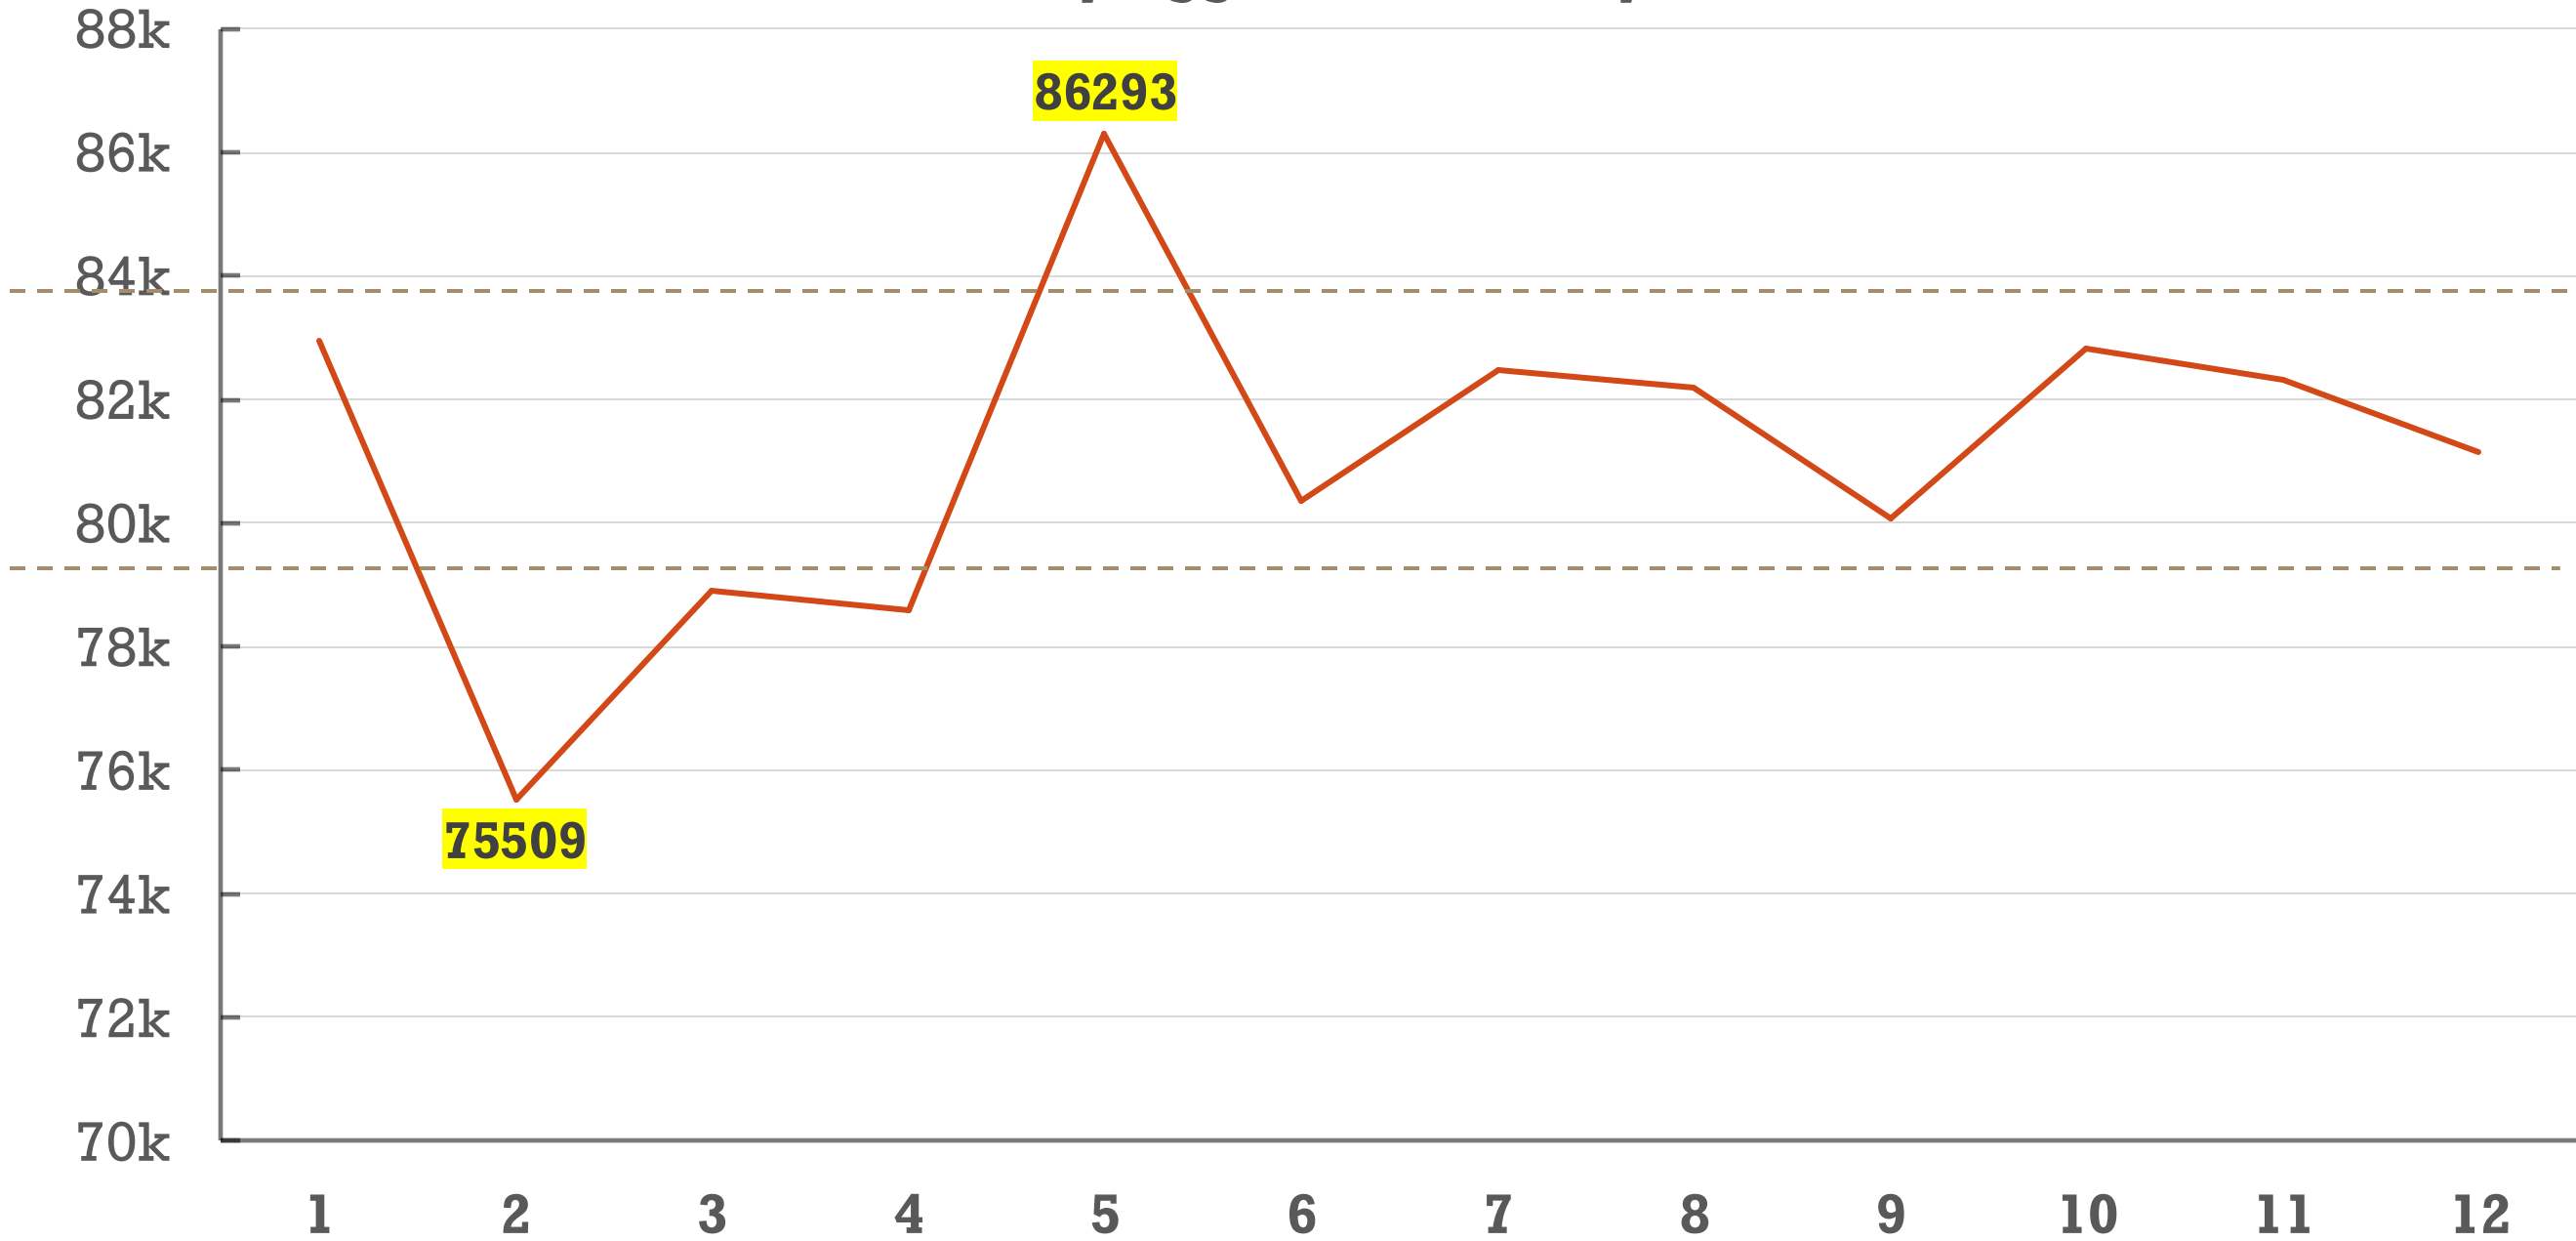

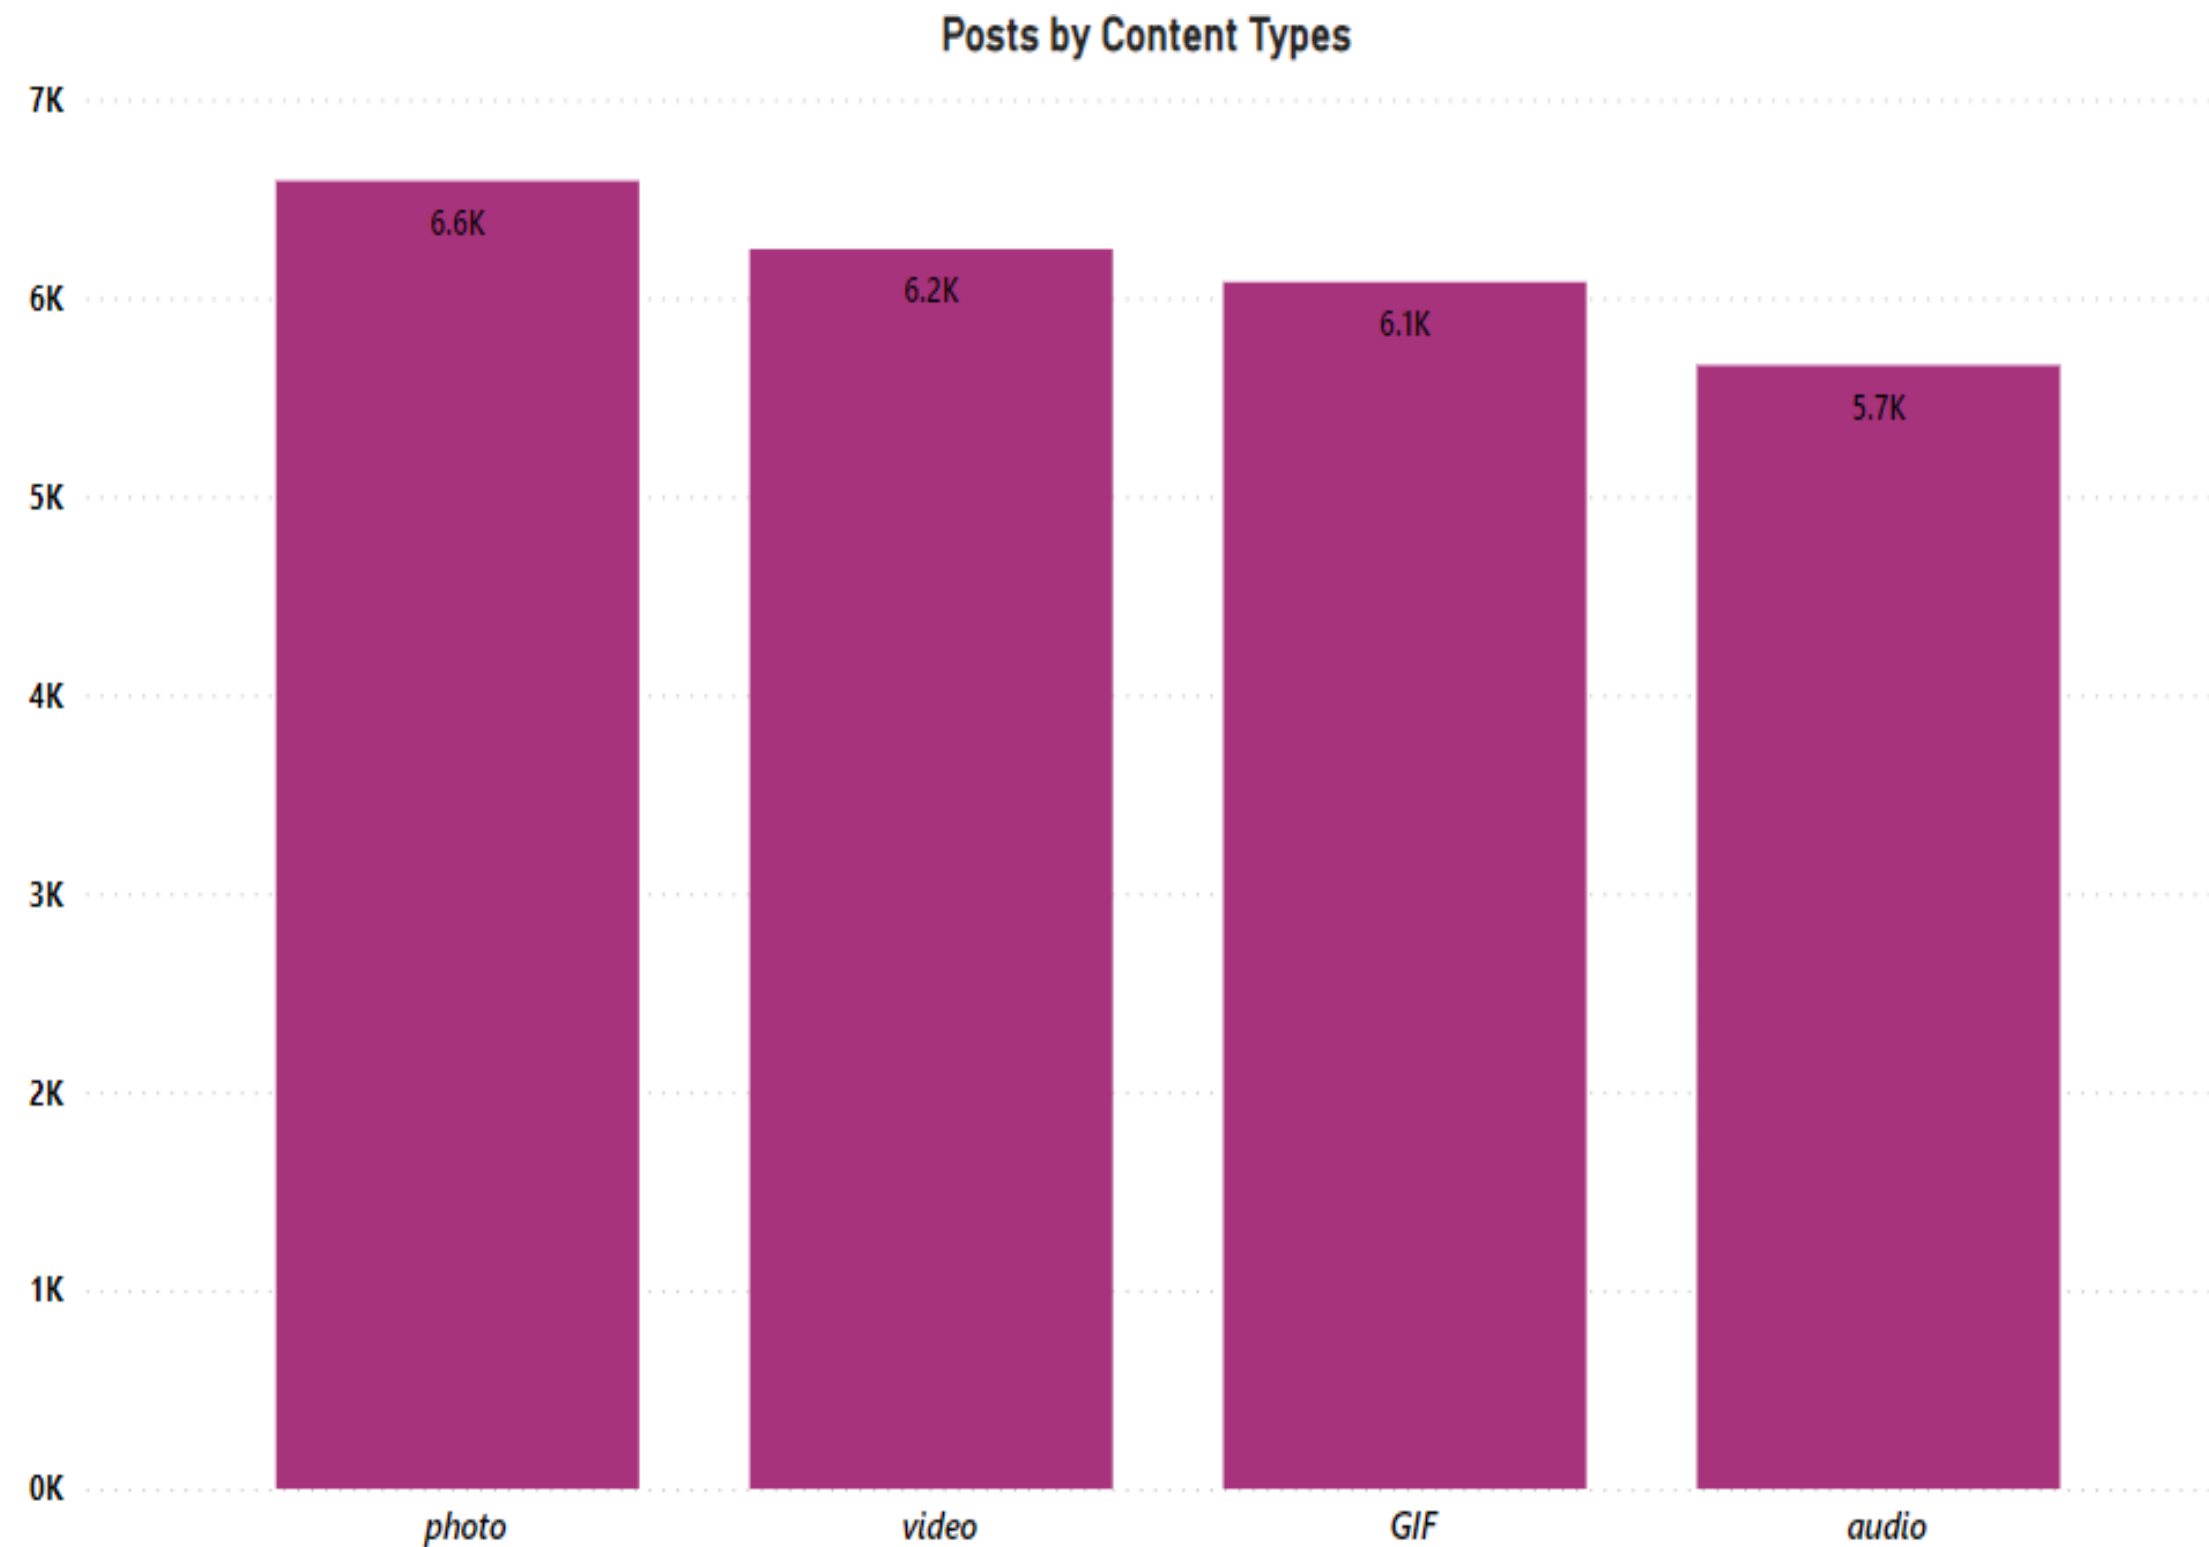

Popularity interest percentage share from top 5 content categories

Content health by aggerate monthly sentiment amount

Looking at the total number of posts by content type, **photos** have the highest posts with a total of **6.6K** posts, followed by **videos** with a total of **6.2K** posts, in third place is **GIFs** with a total of **6.1K** posts, and lastly **audio** with a total of **5.7K** posts.

Summary

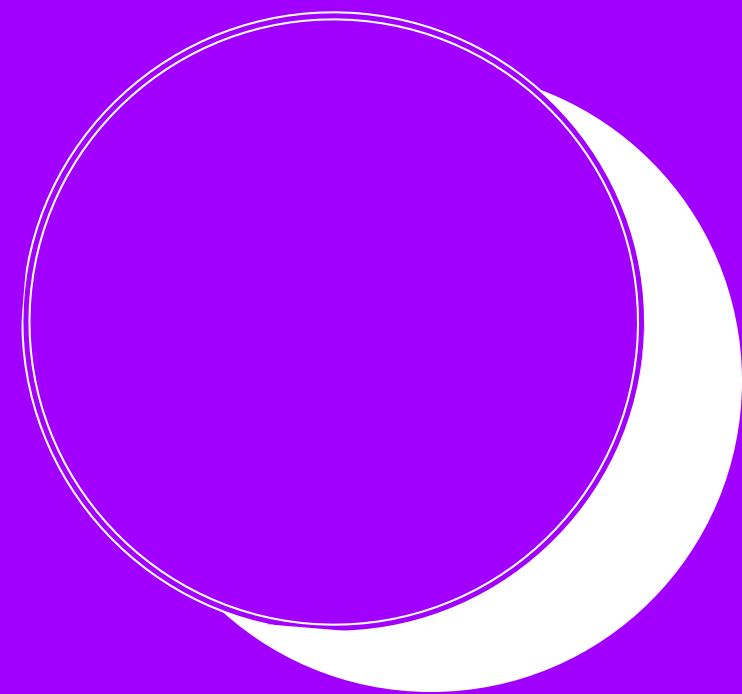

Animals and science are two of the most popular content categories, this shows that people enjoy **“real-life”** and **“factual”** content the most.

- I would recommend that you keep creating more contents relating to these two categories.

Food is a common theme with the top 5 categories with **“Healthy Eating”** ranking as one of the highest.

- This may give an indication to the audience within your user base.
- You could use this insight to create a campaign and work with healthy eating brands to boost user engagement.

Thank you!
